

A One-Year Scripture Memory Plan  
By Bubba Stahl, pastor

This plan calls for memorizing one verse a week for seven weeks (seven different verses) from the seven sections of the Bible: the first five books of Moses (Genesis – Deuteronomy), history (Joshua – Esther), writings (Job – Song of Songs), prophets (Isaiah – Malachi), gospels/acts, Paul’s letters (Romans – Philemon), General letters (Hebrews – Revelation). When seven cycles of seven weeks is completed you will have completed the first year and will have memorized 50+ verses of Scripture.

As you memorize the verse each week, pray it each day during your quiet time and throughout the day. Remember the three rules of memorizing Scripture: repetition, concentration, understanding. Read the verse out loud five times, cover it up and repeat it five times picturing the words in your mind. Pray it during your quiet time and during the day with gratitude. Repeat it as you go to sleep and as soon as you wake up. Each week, continue with last week’s verse as you pray this week’s verse. If some verses are too long, divide them up into seven parts, one part for each day.
